

British Science Week

N

Nursery

Reception

This week in Reception we have been joining in with STEAM week. We investigated bubbles and made bubble prints and splatter paintings. We made some real recycled paper and experimented with colour, creating a walking water rainbow. We were also engineers and made tall towers and bridges with different materials and folded card to create amazing 3D models. We have learned a lot and love experimenting!

1

Year 1

Hand Grab Investigation!

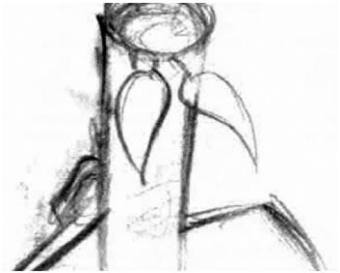

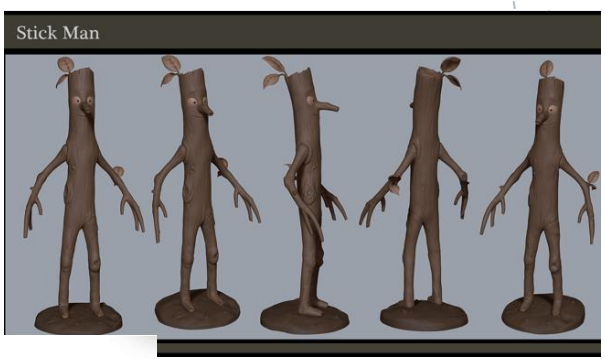

Stick Man talk

Julia Donaldson Axel Scheffler

Books

Fish Relay

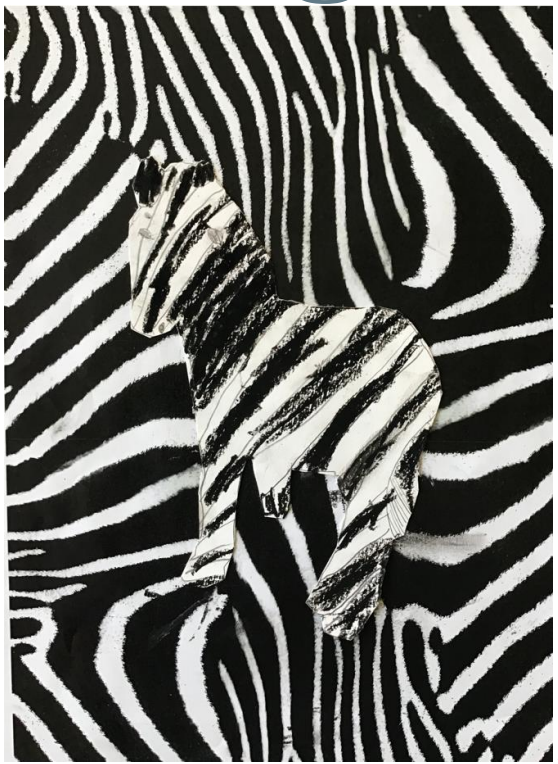

2

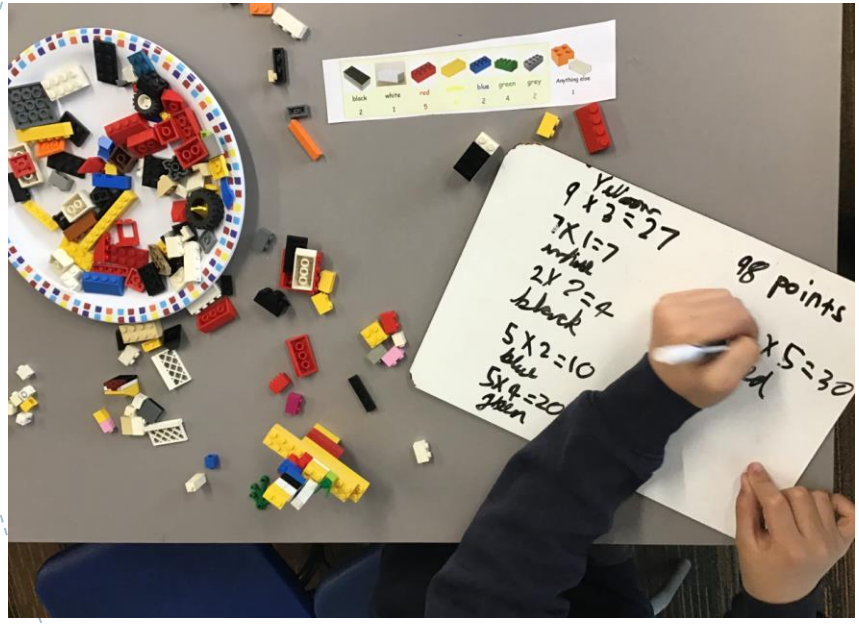

Year 2

Animal camouflage

Building animals with lego

3

Year 3

Growing and developing through exercise!

Cooking

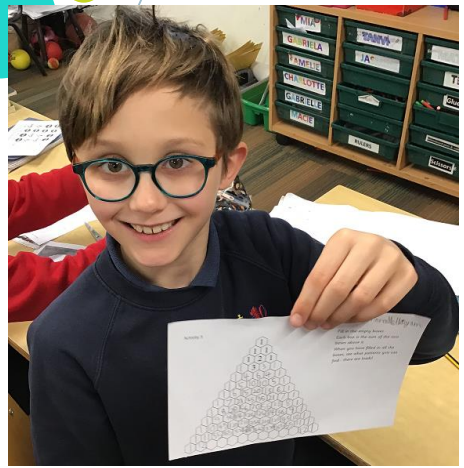

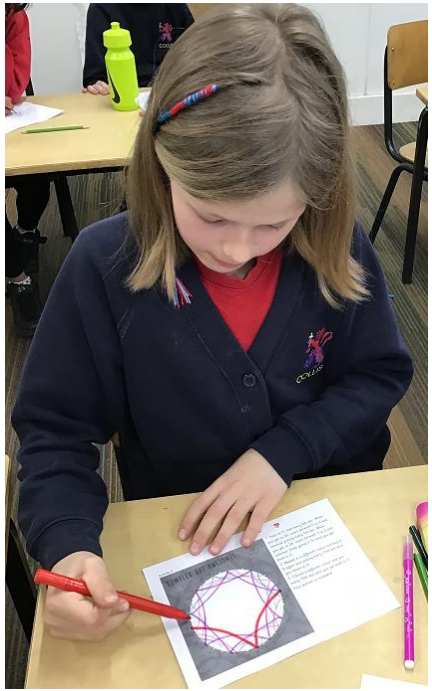

4

Year 4

Fun maths!

Does sound travel best through solids, liquids or gases?

HOPES
GUITAR

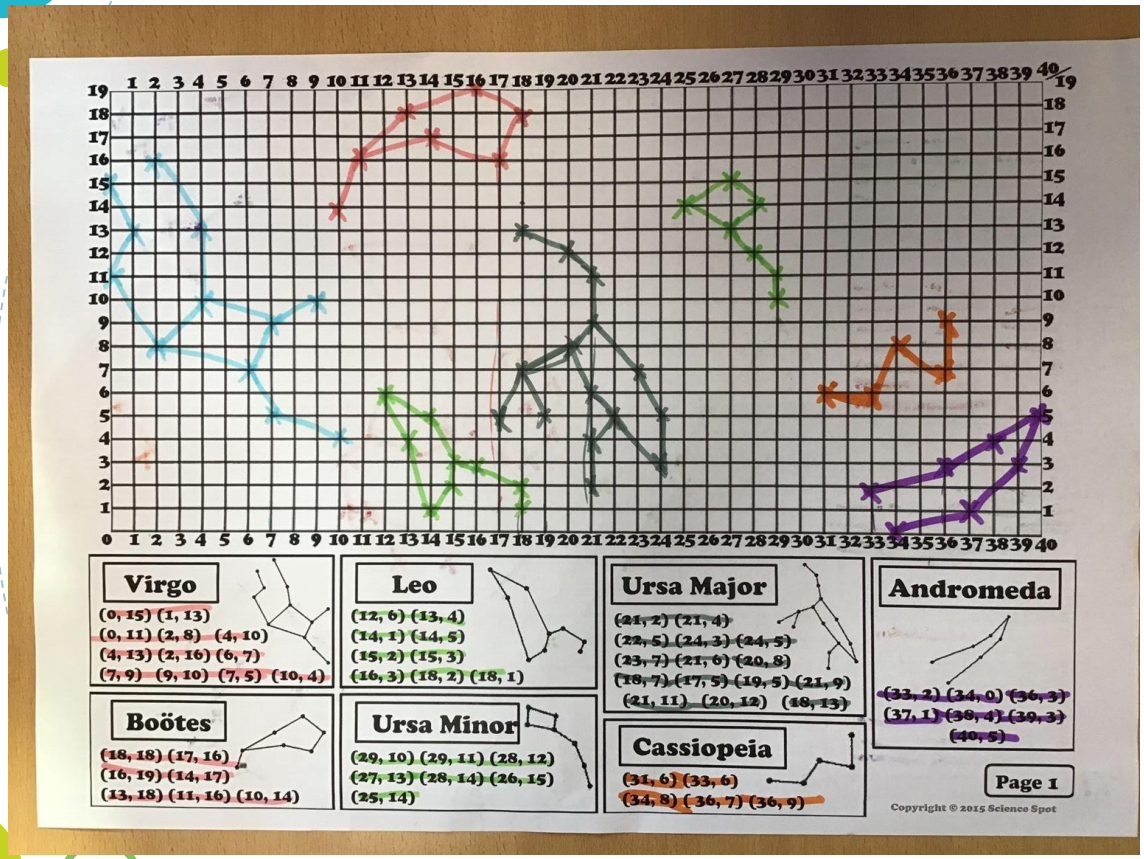

5

Year 5

Mapping the constellations using coordinates

Using a chemical reaction to launch a rocket!

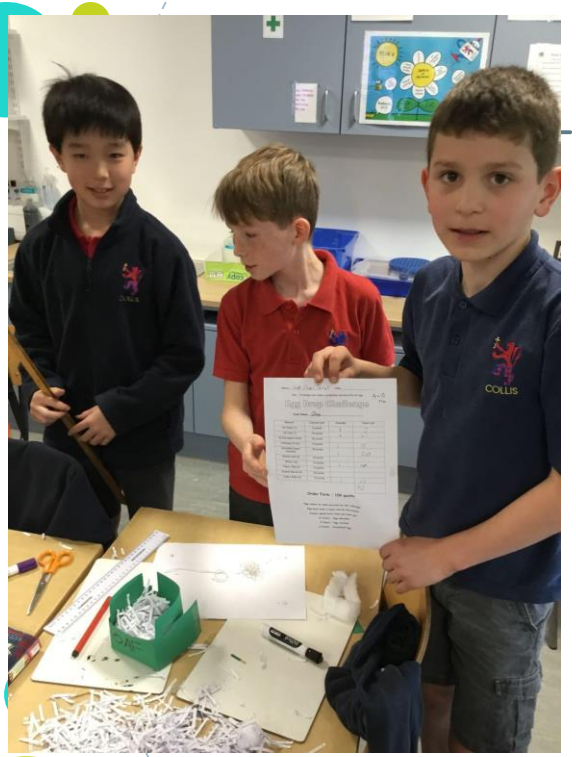

6

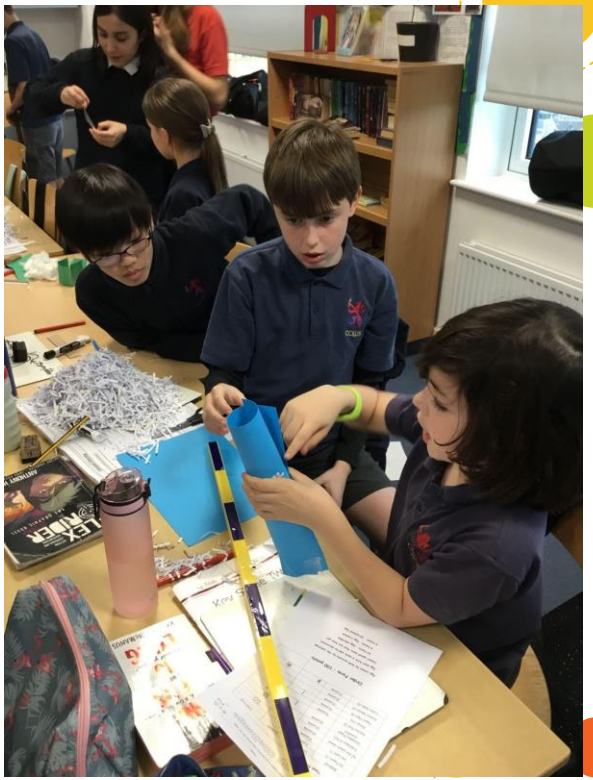

Year 6

The Egg Drop Challenge

COLLIS

Finishing Off

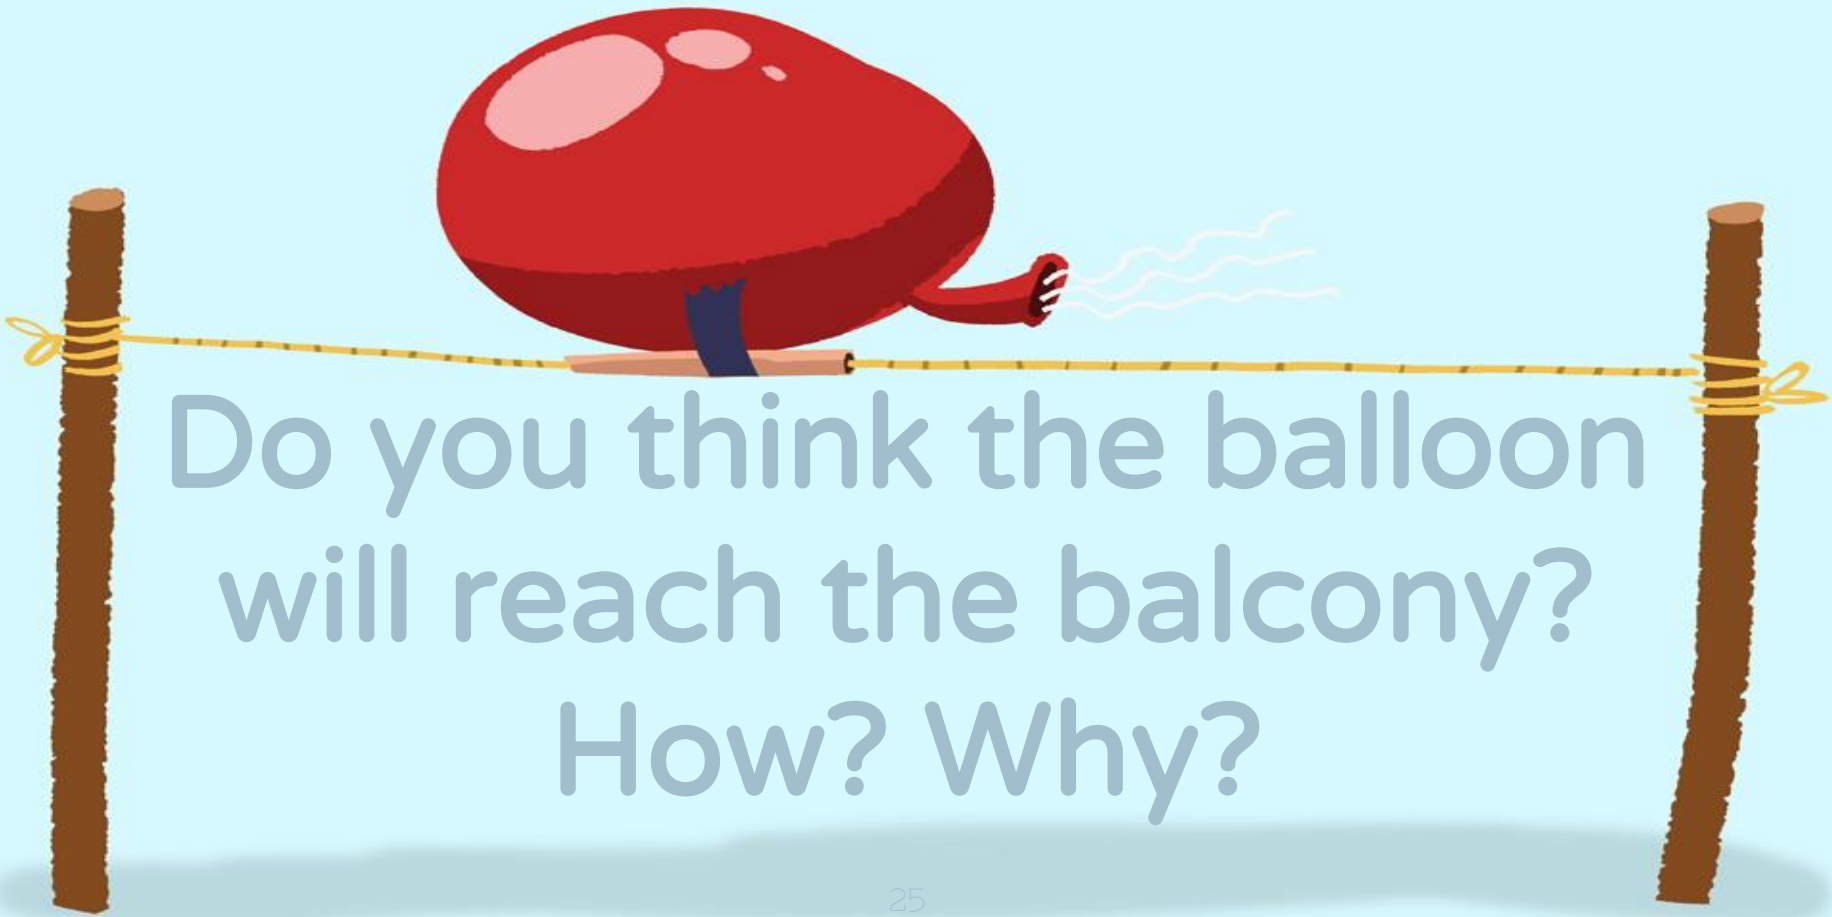

Do you think the balloon will reach the balcony? How? Why?

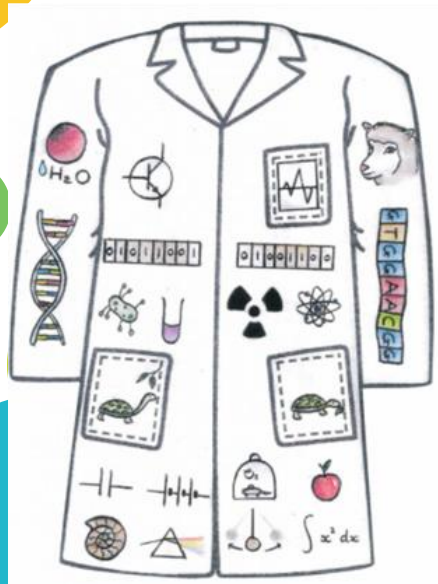

Closing date:
Monday 21st March

Competition Time

Design your own lab coat

Submit your entry to your class teacher

Prizes for best designs and certificates for taking part

Well done everyone!
We have celebrated STEAM in style!
