WE CONSIDERED THE HISTORICAL SIGNIFICANCE OF RICHMOND BOROUGH

Richmond was founded following Henry VII's building of Richmond Palace

in the 16th century, from which the town derives its name.

His son Henry VIII, used to travel along the River Thames to Hampton Court for his holidays.

On his way, he visited his friends in their country houses.

When he arrived, he liked to go hunting.

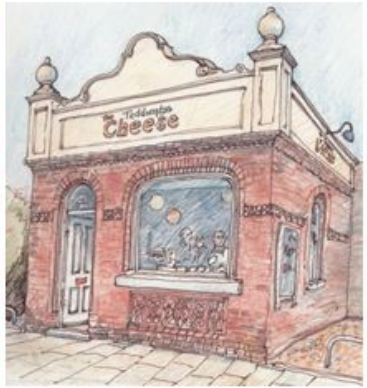

This is why there are so many Royal Parks in Richmond Borough and why it is so green.
