We made diving boards using different construction materials

Year 1

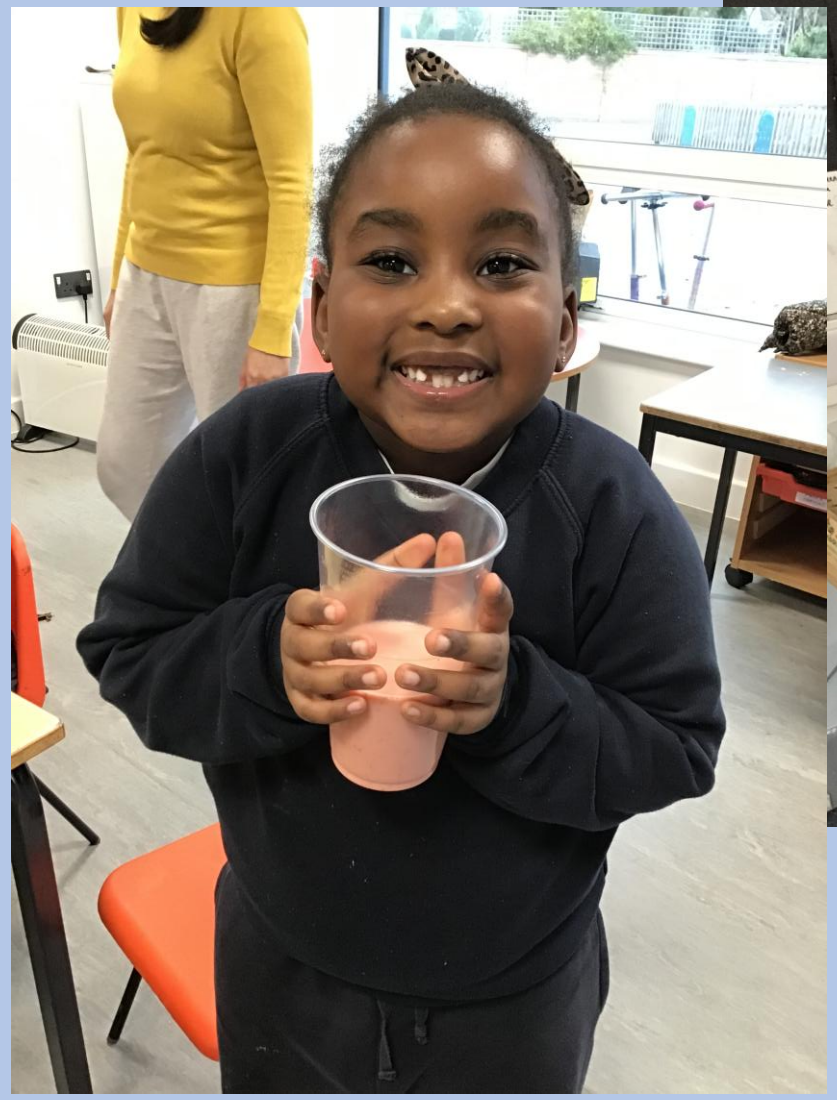

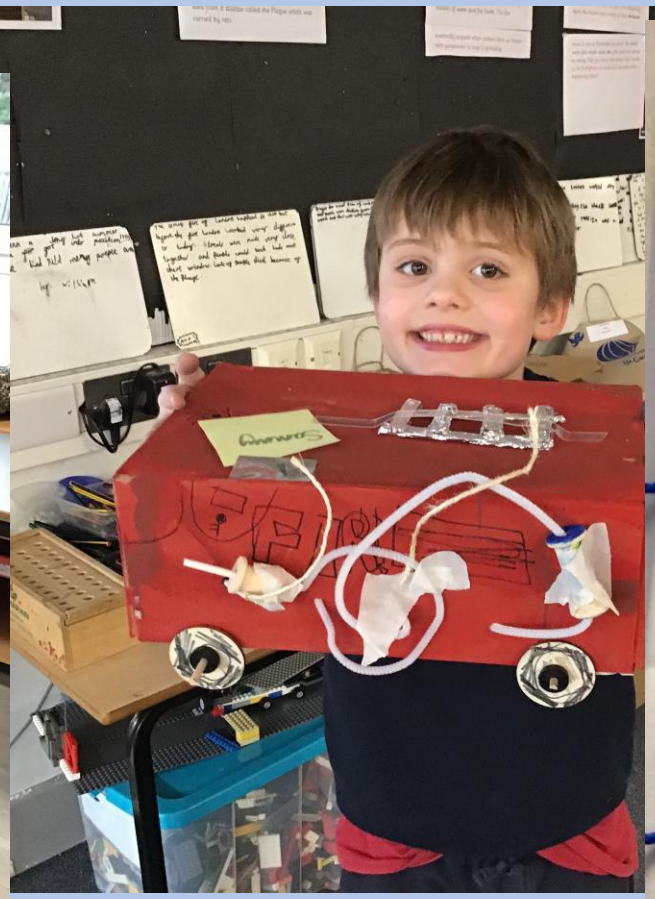

Year One - Autumn 2
Fruit Snack

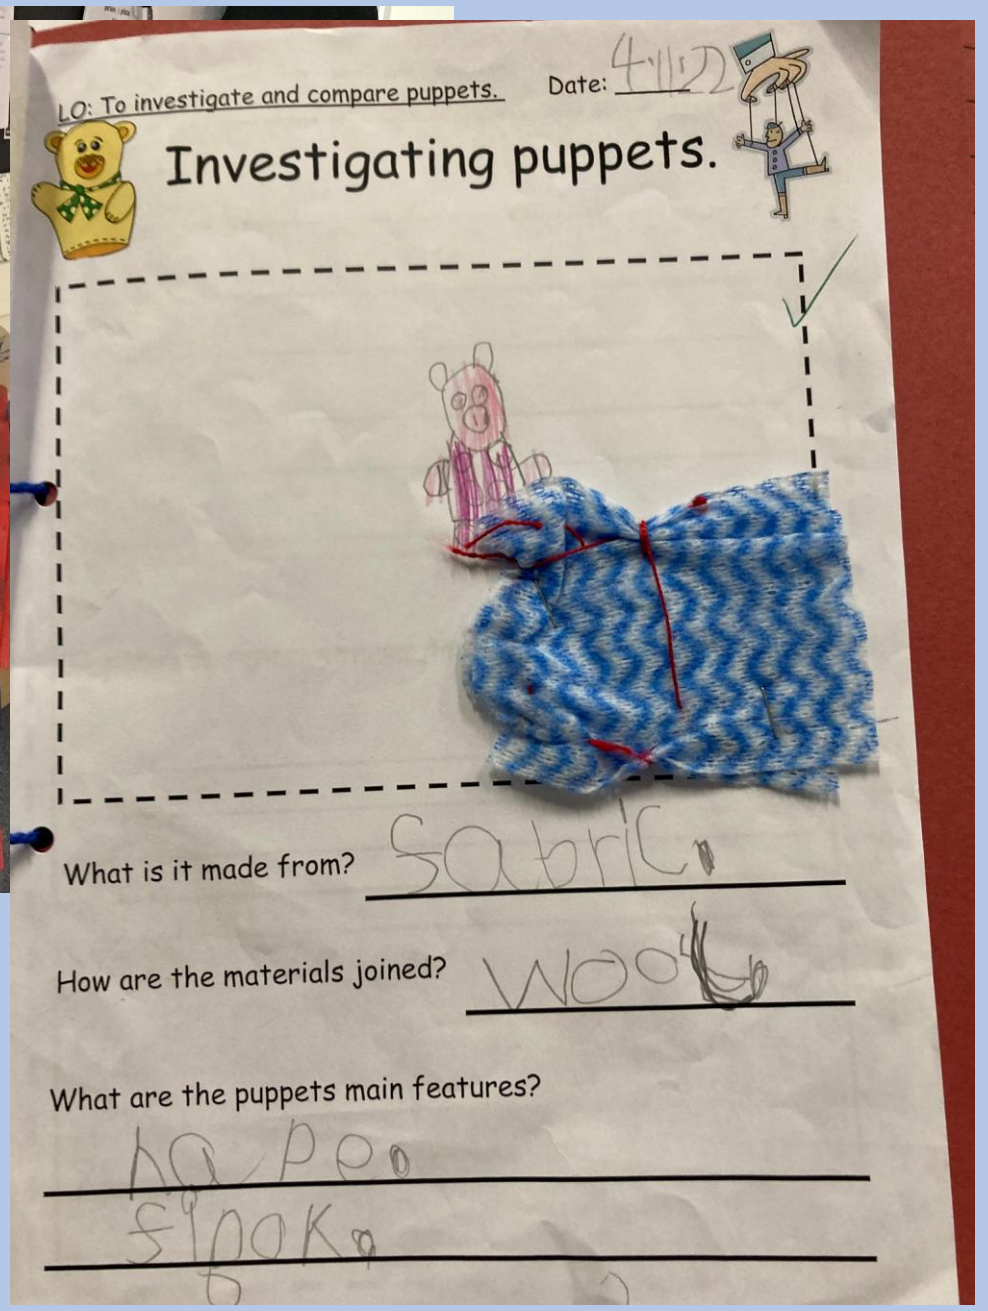

Lesson 2
LO: to design a fruit snack based on what my family would like and to use drawings to communicate my ideas

Draw your design and label the fruits you will use.

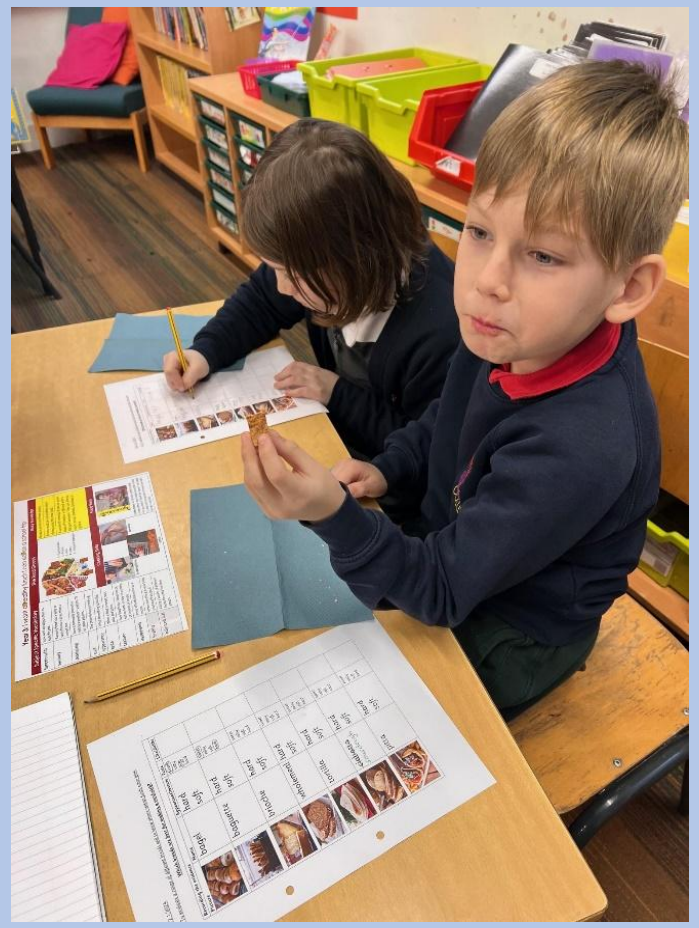

LO: To investigate and compare puppets.
Date: 4/11/22
Investigating puppets.
What is it made from?
Fabric
How are the materials joined?
Wool
What are the puppets main features?
No Poo
Spoke

Year 2

Year 3

26.4.24

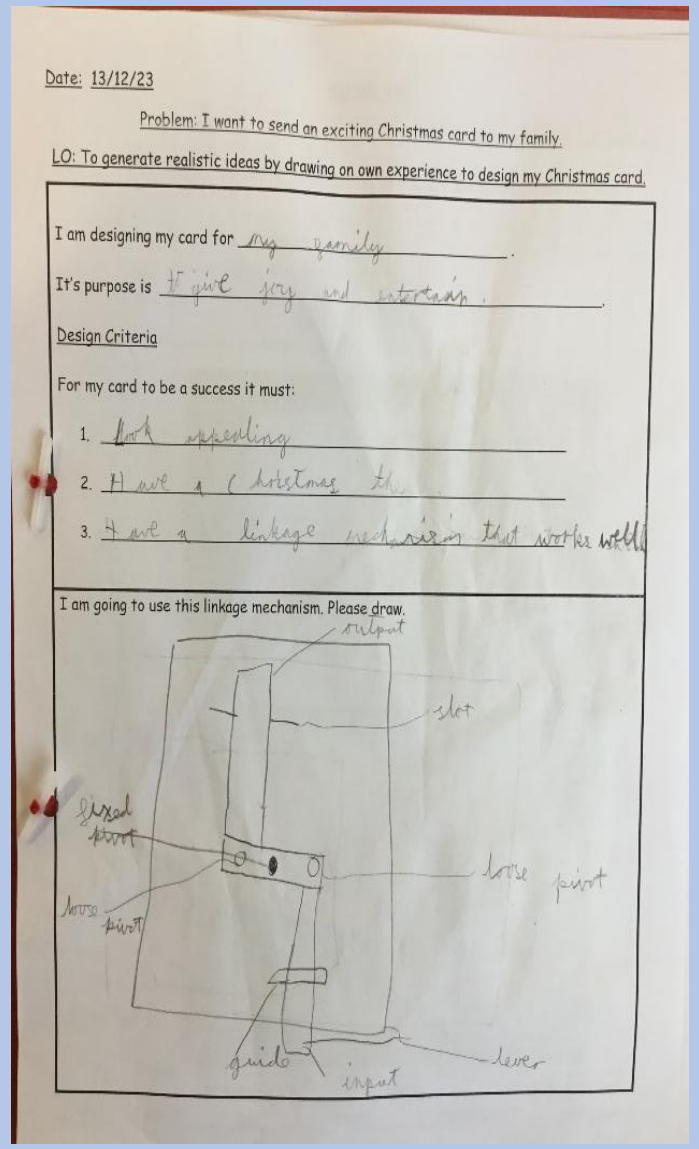

L.O. To know how to assemble and evaluate 3D shapes using squares, rectangles, equilateral triangles and hexagons.

In our lesson today we learnt to create 3D structures out of a net. We had to figure out how to stick the tabs to the faces so that structure was complete. Some of us attempted cutting out a window of one of our faces on the structure.

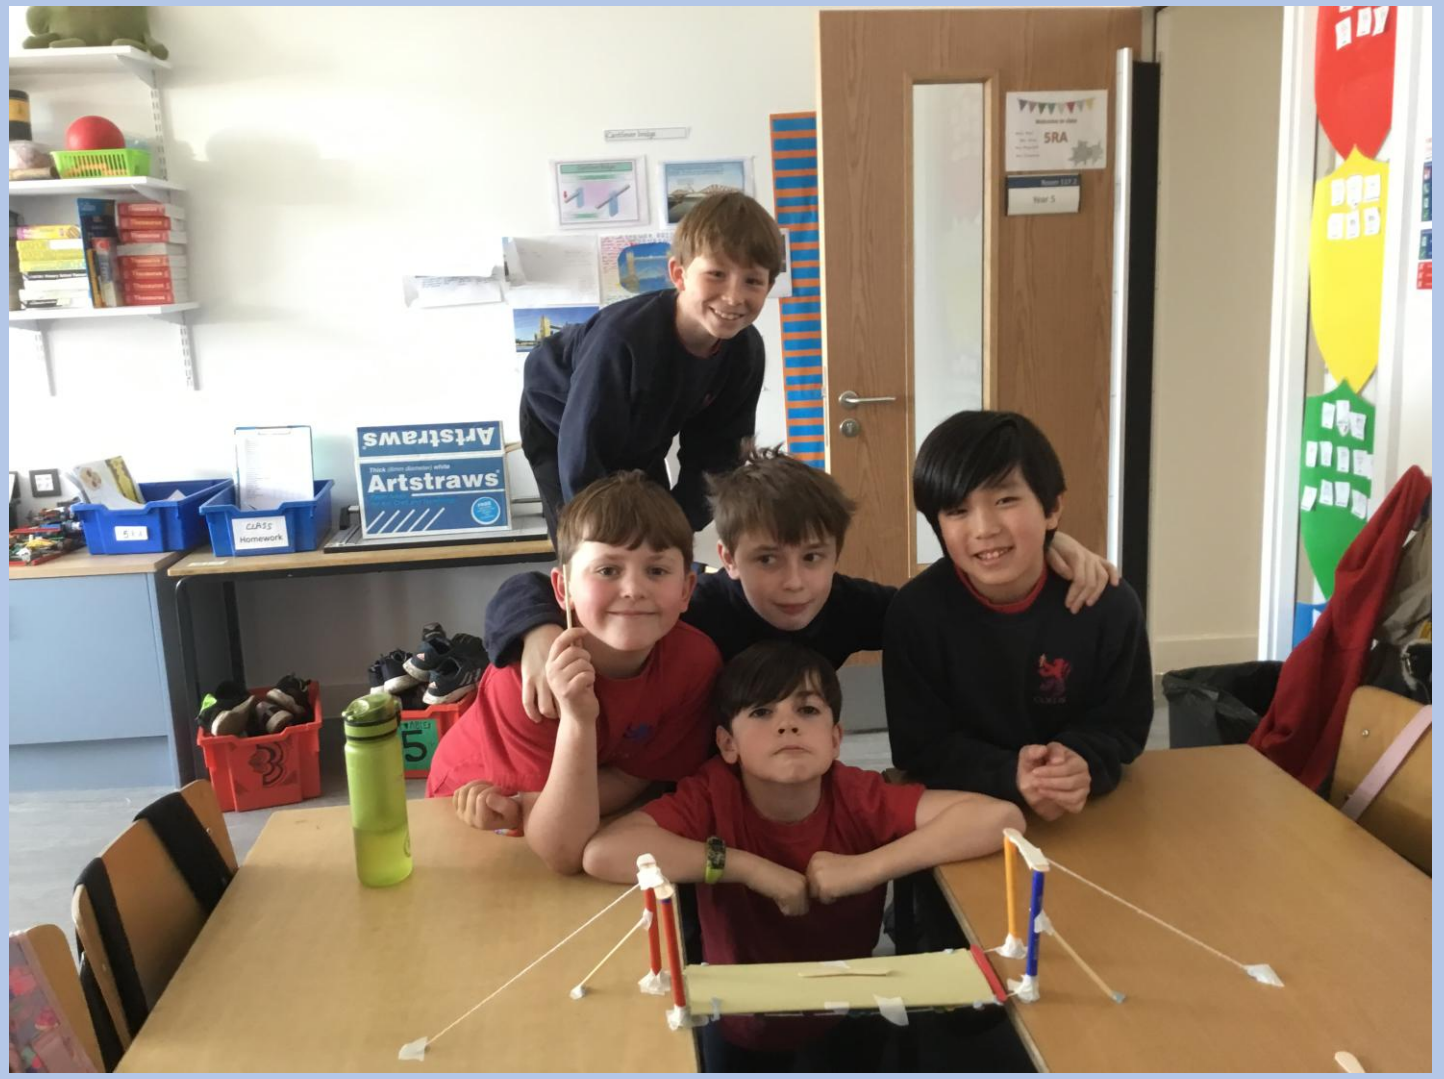

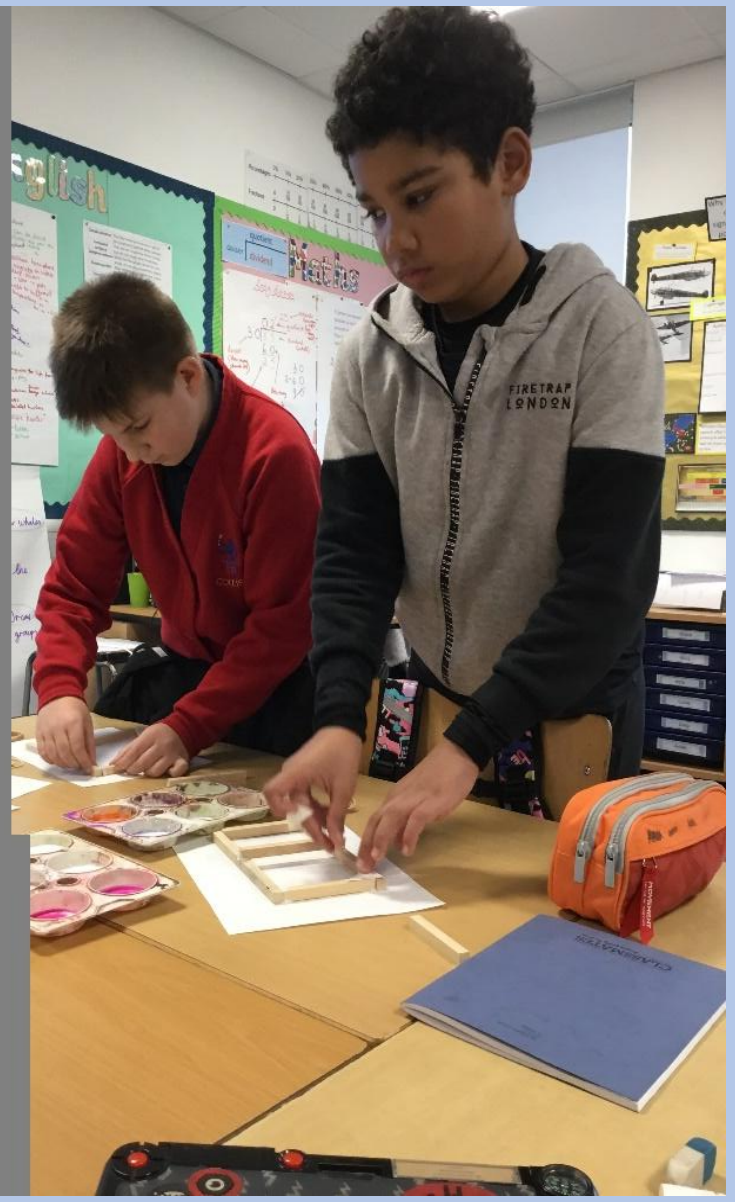

Year 4

A **conductor** is a material that allows the flow of an electrical current in one or ma directions.
An **insulator** is a material whose internal electric charges do not flow freely.
Metals (for copper, ir are good electricity.
bber and plastic are od **insulators** of tricity.
Glass
Cotton
EXPLORING ELECTRICITY
09:31
Thursday 15 December

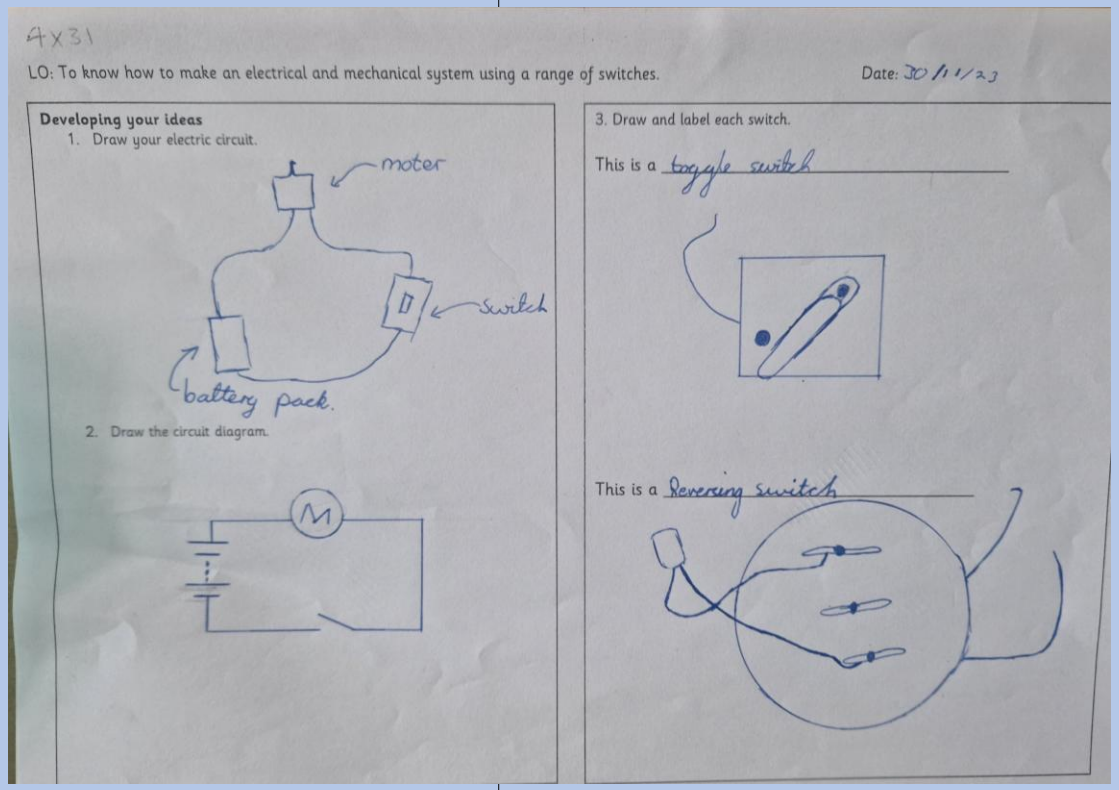

Year 5

Year 6

4x31

LO: To know how to make an electrical and mechanical system using a range of switches. Date: 30/11/23

Developing your ideas

1. Draw your electric circuit.

motor
switch
battery pack.

2. Draw the circuit diagram.

M

3. Draw and label each switch.

This is a toggle switch

This is a Reversing switch
