

Alphabet Squish

- Make the puffy paint using the recipe below.

  - a teacup of shaving foam
  - a quarter teacup of PVA
  - a quarter teacup of plain flour

  (Although, I never measure anymore. A big squirt of shaving foam, a small squirt of glue and a spoonful of flour does the job)

- Use an egg carton to load the puffy paint in and create alphabet eggs!
- Work as a team to shout out a sound and the other person gets to squish it…lots of messy fun.

HAVE FUN WITH PHONICS

☺
