Year 1:What are the parts of a plant and how do they grow?

Subject Specific Vocabulary

petals
Petals are often colourful. They are part of the flower and attract insects and birds.

stem
The stem sits above the ground and moves water up the plant.

leaves
Leaves are usually green. They use the sun to make food for the plant.

roots
They hold the plant in the ground and draw in water and food from the soil.

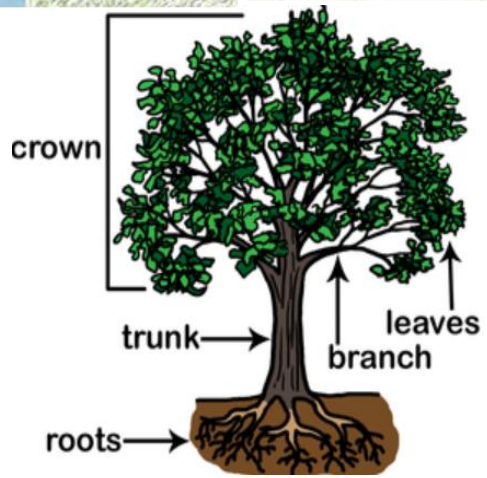
trunk
A trunk is the stem of the tree. They are covered in bark to protect it from damage.

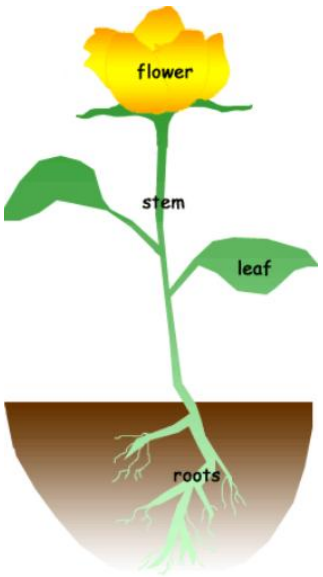
branches
A woody part of a tree that grows out from the trunk.

deciduous
Deciduous trees lose their leaves in Autumn.

evergreen
Evergreen trees keep their leaves all year round.

Interesting Books About Plants





Sticky Knowledge
