Year 2: What is life like in Antarctica?

Subject Specific Vocabulary	
Antarctica	A huge ice-covered landmass surrounded by sea.
settlement	A place where people live.
ambassador	Children promoting the importance of protecting Antarctica.
glacier	Huge, thick masses of ice which form when lots of snow falls over a number of years.
harbour	A place where water meets land. Harbours have deep water to stop boats getting stuck on the bottom.
adapt	The process of changing so an animal or plant can survive in its surrounding environment.
climate change	Sometimes known as global warming, it is the process of our planet warming up.
